Bucklige Welt showcases the diversity of the region at the Lower Austrian Provincial Exhibition 2019 in the category „Intriguing history of a country“. This is an excellent opportunity to indulge in the natural spoils of the area and to get to know the multifaceted terrain. It is also important to explore the tale(s) of the historical evolution in this land of a thousand hills.

The exciting region of Bucklige Welt – a spa town with thermal springs, pays great attention to the distinctive historical events and their tale(s) within their area. Here, you have the unique opportunity to choose from four different journeys through the Heart of History in the land of a thousand hills. The minstrel Ulrich von Liechtenstein is symbolic of these provincial stories to be experienced from different epochs of this region:

The minstrel Ulrich von Liechtestein (1200 – 1275) took part in many magnificent knight tournaments in the course of his life, and in adventurous voyages. As described in his “Frauendienst” (knightly code of honour in the Middle Ages), he spent a lot of time in the area of Gloggnitz, Neunkirchen, Pitten and Wr. Neustadt with his entourage. Katzelsdorf Castle was even mentioned in his “Venus Journey of the knight” in 1227. A repeated journey in 1240, brought him as a “disguised King Arthur” back to the area in the vicinity of Wr. Neustadt, where he met Duke Frederick II.
